

Curriculum Vitae

Daniel Farmer
Technical Director

June 2011

highpoint
implementation and training services

Summary

Dan is a highly experienced financial software consultant with over 12 years industry experience, including eight years with as a Senior Implementation Consultant with Agresso. During this time Dan has implemented versions 5.3 through to the current version 5.5. His experience covers a number of market sectors including Commercial, Local Government, HE and other publicly funded bodies.

Having been involved in over 40 Agresso projects in the capacities of Lead Consultant and module specialist he has wide experience of directing and collaborating within a diverse range of implementations.

Dan has extensive knowledge across all modules and tools of the Agresso Business World application suite, including Financials, Project Costing and Billing, Purchase to Pay, Sales to Cash, Excelerator and Agresso Report Creator (ARC).

With a pre-Agresso background in software development, Dan also has experience using ACT (Agresso Customisation Tools), as well as having a comprehensive understanding of the underlying structure of Agresso Business World.

Dan can confidently guide your implementation team through the design, build and testing process, making sure pitfalls are avoided and the implementation is as efficient and cost-effective as possible.

Dan is also an experienced trainer and training material developer having lead a diverse range of training projects from small scale 'niche' requirements, typically training system administrators, up to large scale, 500+, end-user training requirements.
